

Muhammad Shaban Malik

BS Computer Science Student | DevOps Intern | C++ Programmer
Lahore, Pakistan | 03377620216 | shabanmalik1238@gmail.com

PROFESSIONAL SUMMARY

BS Computer Science student at University of Central Punjab with a 3.22 / 4.00 CGPA, currently gaining hands-on industry experience as a DevOps Intern at PITB, working with Linux, Docker, Git/GitHub, and CI/CD pipelines on AWS. Combines academic foundations in Object-Oriented Programming, Data Structures & Algorithms, SQL, and database design with practical DevOps exposure including shell scripting, containerization, version control, and building CI/CD pipelines on personal AWS repositories. Seeking a software development or DevOps internship/entry-level role to apply programming, cloud, automation, and problem-solving skills in a real-world environment.

TECHNICAL SKILLS

Programming: C++, Object-Oriented Programming (OOP), File Handling, String Processing

Computer Science: Data Structures, Algorithms, Linked Lists, Stacks, Queues, Trees, Sorting, Searching

Database: SQL, MySQL Workbench, Database Design, ER Diagrams, Normalization, Relational Schema Design

DevOps & Cloud: Linux, Shell Scripting, Docker (Containers), Git, GitHub, CI/CD Pipelines, AWS Basics, CI/CD Pipeline Deployment on AWS

Tools: Visual Studio IDE, Linux Terminal, Docker, Git/GitHub, AWS Console

Professional Skills: Problem Solving, Debugging, Team Collaboration, Adaptability, Fast Learning

INTERNSHIP EXPERIENCE

DevOps Intern — Punjab Information Technology Board (PITB) | *July 2026 - Present*

- Working hands-on with Linux systems and shell scripting to manage and automate day-to-day development and deployment tasks.
- Built and managed Docker containers to package and run applications in isolated, reproducible environments.
- Used Git and GitHub for version control, branching, and collaborative code management.
- Designed and implemented a complete CI/CD pipeline on a personal GitHub repository, automating build, test, and deployment stages.
- Deployed and configured the CI/CD pipeline on AWS, applying foundational AWS concepts to cloud-based automation.
- Strengthened practical understanding of DevOps workflows, automation, and cloud fundamentals alongside academic coursework.

EDUCATION

Bachelor of Science in Computer Science (BSCS) | *University of Central Punjab, Lahore, Pakistan*

2024 - Present | 4th Semester | CGPA: 3.22 / 4.00

Relevant Coursework: Introduction to Computing, Programming Fundamentals, Object-Oriented Programming, Data Structures & Algorithms, Database Systems

PROJECT EXPERIENCE

Hotel Reservation System | *C++, File I/O, Visual Studio*

- Developed a console-based hotel reservation application to check room availability, create bookings, and maintain customer records.
- Implemented file handling to store and retrieve reservation and customer data.
- Applied structured programming, input handling, and debugging to improve booking workflow reliability.

CSV File Manipulation Tool | *C++, File Handling, String Processing*

- Built a C++ data processing tool to read, parse, filter, sort, and write CSV files.
- Used string processing and file I/O to manage structured records and generate updated output files.
- Practiced modular programming and debugging for clean data manipulation logic.

Dungeon Game | *C++, OOP, Visual Studio*

- Designed a text-based dungeon adventure game using object-oriented programming principles.

- Created class-based models for characters, enemies, and items using encapsulation, inheritance, and polymorphism.
- Implemented interactive game logic to strengthen C++ application design and problem-solving skills.

ACADEMIC LEARNING

Data Structures & Algorithms: linked lists, stacks, queues, trees, sorting, searching, and algorithmic problem solving.

Database Systems: SQL queries, ER diagrams, normalization, relational schema design, and MySQL Workbench.

CORE COMPETENCIES

Software Development, DevOps, C++ Programming, OOP, Data Structures, Algorithms, SQL, MySQL, Database Design, File Handling, CSV Processing, Console Applications, Linux, Docker, CI/CD, AWS, Git/GitHub, Debugging, Problem Solving

LANGUAGES

Urdu: Native | English: Proficient
